

Software Engineer

(217) 246-1928 | idoricejunior.onrender.com | ifeujiodongmo@eiu.edu | [linkedin.com/in/junior-idrice](https://www.linkedin.com/in/junior-idrice) | github.com/Junior-idrice

EDUCATION

Eastern Illinois University, Charleston, IL

Expected Graduation: May 2028 | **GPA:** 3.93 / 4.0

Degrees: Bachelor of Science in Computer science, Bachelor of Science in mathematics

Awards: Mathematics Alumni Scholarship, Edson H.Taylor award, Vogel Freshman Exam winner award

Certifications: Havard's CS5 Web Programming with Python and JavaScript

TECHNICAL & ANALYTICAL SKILLS

Data & Analysis: Excel, SQL, Python (Numpy, Pandas), Data Visualization, Statistical Analysis

Programming: Python, JavaScript/TypeScript, C, C++, Java, SQL, CSS, HTML5

Frameworks & Libraries: React, Django, REST APIs, PyTorch, TensorFlow, Bootstrap, NumPy, Pandas

Business & Product Skills: Market research, competitive Analysis, Product Documentation, Data reporting.

Tools & Technologies: Git, Linux, Database Design (SQL), Cloud Infrastructure, GPU Computing, CI/CD, AWS, Heroku,Render

Spoken languages: French (Fluent), English (Fluent)

PROFESSIONAL EXPERIENCE

Ets Electronics, Yaounde, CMR | *Full-Stack Web Developer*

Oct 2022 – Aug 2024

- Architected and deployed responsive company website with modern Js frameworks (React, Django), increasing user engagement by 90%
- Built intuitive user interfaces with HTML5, CSS3, and Bootstrap, optimizing UX through iterative design and user feedback
- Maintained production codebase with version control (Git), ensuring code quality through peer reviews and testing

Cooperative Sidcoton, Ebolowa, CMR | *IT Support Specialist & Database Developer*

May 2022 – Aug 2024

- Designed and implemented SQL database solutions for large-scale inventory management and reporting systems
- Provided technical support for 50+ users across hardware, software, network infrastructure, resolving 95% of issues within 24 hours

Eastern Illinois University, Charleston, IL | *Mathematics Tutor*

Jan 2025 – Present

- Mentor 5+ students weekly in advanced mathematics and algorithmic problem-solving techniques
- Create digital learning resources and automated scheduling system to improve operational efficiency

TECHNICAL PROJECTS

Full-Stack NoteBook Application ([GitHub](#) | [Live Demo](#))

Jan 2025 – Aug 2025

- Developed a responsive Notebook App using React and Django, enabling users to create, edit, and delete notes seamlessly.
- Implemented features for adding new notebooks and managing existing ones, ensuring a smooth user experience.
- Tools: React, JavaScript, HTML/CSS, Bootstrap, Django, Python

Neural Network for Graph Pattern Recognition ([GitHub](#))

Aug 2024 – Jan 2025

- Architected and implemented deep learning model using PyTorch achieving 95% accuracy on geometric pattern recognition tasks
- Applied advanced mathematical algorithms including linear transformations and matrix operations

Full-Stack Personal Portfolio ([GitHub](#) | [Live Demo](#))

May 2025 – Aug 2025

- Developed responsive web application using Bootstrap with modern Django features
- Designed mobile-first responsive UI with CSS Grid and Flexbox, achieving 98% Lighthouse score
- Tools: HTML, CSS, Django, Bootstrap

LEADERSHIP & COMMUNITY IMPACT

National Society of Black Engineer, EIU, IL | *president*

Sept 2025 – Present

- Founded and established the first National Society of Black Engineers chapter at Eastern Illinois University
- Led and organized chapter operations, recruitment, and events promoting diversity and professional growth in STEM.
- Organize coding workshops and technical mentoring programs for peer skills development

Computer Science Club, EIU, IL | *Vice president*

Nov 2024 – Present

- Lead strategic planning and technical initiatives for 10+ member organization focus on software development
- Developing a responsive and dynamic website for the Computer Science Club
